EN | DA

Søren Kloch, Henrik Sabinsky, Denmark, 1981  
10 min. | DK/Experimental

An étude, or recreation, of something in the past: In Copenhagen in the 50s, a boy on his way to school stops and looks inward. The film is an attempt at capturing something as elusive as dream and memory. Its artistic effects are experiments with the narrative course, with the nature of its colours, camera angles and focus, and the rythm of the editing.
